

## DEGREASER

LSA Degreaser is a specially formulated general purpose degreaser. It is a 97% hydrocarbon solvent based degreaser for use in metal degreasing, engine, parts and floor cleaning.

- Colourless to pale yellow liquid.
- Low volatility ensures minimal evaporation losses.
- Versatile and may be hosed off with water.

### PERFORMANCE FEATURES

Solvency – will provide degreasing, emulsifying properties and leave a clean surface.

### APPLICATIONS

Maintenance Cleaning – spray or brush on, allow 5 to 10 minutes before hosing off.

Engine & Parts Cleaning – soak parts up to 2 hours, drain then flush with high pressure water, then blow dry.

Floor Cleaning – apply to affected area with mop or stiff broom, rinse off with water and squeegee to dry.

Metal Cleaning – dip or spray to preclean surfaces during manufacturing and prior to electroplating, then rinse off with water after 2 to 5 minutes.

SAFETY – high flash point.

### HAZARD CLASSIFICATION

Non Dangerous Goods  
Irritant  
Poison Schedule S5

Please consult the MSDS on LSA Degreaser before use.

### TYPICAL CHARACTERISTICS

Properties	Unit	Value
Density @ 15°C	g/mL	0.82
Flash Point		>61°C
Boiling Range	100kPa	150 - 280°C
Aromatic Content		Mild Odour

### Package Sizes

1000 litre  
205 litre  
20 litre
